### Retraction notice to Comparative study between dexmedetomidine, magnesium sulphate and fentanyl as sedatives throughout awake fiberoptic intubation for patients undergoing cervical spine surgeries Egyptian Journal of Anaesthesia Volume 33, Issue 4, October 2017, Pages 345-349

Tarek Radwan, Rania Fahmy, Mohamed El Emady, Islam Reda

*Department of Anesthesia, Intensive Care Medicine and Pain Management, Faculty of Medicine, Cairo University, Kasr Al Ainy St., Cairo 11562, Egypt*

This article has been retracted: please see Elsevier Policy on Article Withdrawal (<https://www.elsevier.com/about/our-business/policies/article-withdrawal>).

This article has been retracted at the request of the Editor-in-Chief.

The article is a duplicate of a paper that has already been published in the Med. J. Cairo Univ., 85 (2017) 1775-1782. [<http://medicaljournalofcairouniversity.net/home2/images/pdf/2017/>

[September/017.pdf](#)]. One of the conditions of submission of a paper for publication is that authors declare explicitly that the paper is not under consideration for publication elsewhere. As such this article represents a severe abuse of the scientific publishing system.

The scientific community takes a very strong view on this matter and apologies are offered to readers of the journal that this was not detected during the submission process.
