Retraction: Preclinical assessment of Tc-99m labeled Nano colloid Liposomes as an Effective Blood Pool Radiopharmaceutical.

The original article titled "Preclinical assessment of Tc-99m labeled Nano colloid Liposomes as an Effective Blood Pool Radiopharmaceutical: a randomized controlled trial" published in Egyptian Journal of Nuclear Medicine, on pages 53-63, Issue 1, Volume 20, 2020 ^[1] is being retracted because the similar article was already published with title " Blood-Pool Imaging Using Technetium-99m- Labeled Liposomes" in " The Journal of Nuclear Medicine " on pages 1374-1379, Issue 8, Volume 37, 1996. It was brought to the attention of editorial board that there is substantial overlap of content in article published earlier in The Journal of Nuclear Medicine with the possibility of Plagiarism, fabrication or redundant publication violates the editorial policy of Egyptian Journal of Nuclear Medicine, which follows best practice guidelines given by the Committee of Medical Journal Editors mentioned on the Information for Authors and as codified in the signed statements made by the authors regarding the copyright of their work.

This article should be retracted on request of the Editor-in-Chief and editorial board of the journal.
