Implementation of Teaching Methods in Engineering College

Hassan Sajid and Hana Tariq

Caledonian College Of engineering, Oman, hassan150347@cceoman.net, hana140116@cceoman.net

Supervisor: Muhammad Raheel Mohyuddin, Senior Lecturer

Caledonian College of engineering, Oman,

mraheel.mohyuddin@caledonian.edu.om, (+968) 99852897

The purpose of this study is to analyze and evaluate different teaching methods implemented all around the world, and to recommend different solutions or additions to the existing teaching methods in order to give the students a better insight of the subjects. This study focuses on the teaching point of education, that is, the teachers and their teaching methods; how well do they transfer their knowledge and what different variations of teaching do they use around the globe that can be implemented in Caledonian College of Engineering, Oman. This study also focuses on Bloom's taxonomy and how it can be used for student's evaluation.
